

I'm Asha

As is common in India, my parents married me off when I was 17. I was an agricultural laborer but rarely paid. I heard about work where I could earn a fair wage. I had never made jewelry, but I was trained and accepted in. Life is much better, now. I'm confident and earn enough to send my children to school and provide them with healthcare. Your purchase is giving me valuable work, dignity and respect.

Thank you!

TRADES *of* HOPE
