Create Jobs for Women Like Asha in India

"There are no opportunities in India if you don't have a good education, and all I have is a skill I learned from my mother. My mother taught me basic weaving and braiding. I shaped up this skill and polished it to become a Team Leader in this workshop where today, I have nine women working with me. We have a light joke about this in our workshop - that Trades of Hope has really given us hope!"
